## REPORT OF SCHOOL BOARD.

---

The School Board of the town of Hancock respectfully submit the following report: By the act of the legislature of 1895, the school year closes July 31, and the statistical report has to be made to the selectmen and superintendent of public instruction at that time, so that the report is most a year old before it reaches the people.

It is no small task to secure such teachers as the board wish to, but we think we have been very fortunate this year, and we believe that good progress has been made in every school. There is one thing that we wish to call the attention of the parents to, and that is the number of tardy and absent marks that we find in all of the registers. Now, we know that in many instances they cannot be avoided, while in many, it seems to us, there is no excuse for them, and they are a great damage to our schools, not only to the one who does not attend the school, but to his or her classmates, and makes it very unpleasant for the teacher.

Last year the district raised considerable money for the improvement of the schoolhouse at the village, and we have enlarged one of the rooms, laid floors in both and cemented the basement, and we feel that those who have been in the building cannot help seeing what a great improvement it is.

We need some new furnaces now, but the board thought it was best to delay action upon this part of the improvements until after another school meeting.

We would recommend that the district raise as much money as last year, or more if they feel that they can afford to. We feel that when we consider that the children of today will in a short time be the ones who will be at the head of affairs in town, state and nation, and that the condition of a nation depends upon the education of its people, money spent for our schools, when rightly used, is money well invested.

In closing our report, the board wish to thank the citizens of the district for the support they have given us.
